YOUR TRUSTED SUPPLIER

ABOUT US

Star Plastic Group (SPG) is a leading group of supplying and distributing Polymers (PP, PE, PS, ABS, PVC and others) in the Middle East and Globally.

We provide all kinds of solutions of plastic raw materials and additives in the form of customized services and we also offer brand new solutions in developing special plastic market with our high quality and large product range.

We undertake to deliver the highest quality services by means of rapid material delivery, expert suggestions for applications, large inventory, availability and logistics system and we are capable of meeting all the demand of your company in terms of general raw material and special plastic additives that shall facilitate your work flows and decrease storage and transportation costs.

We operate its commercial activities with 100% equity capital and transforms its gains into investments in the plastics industry.

OUR VISION

SPG aims to be your solution partner in plastic with its specialized and environmentally friendly products.

OUR HISTORY

Star Plastic Groups (SPG) established in 2010 in the Kingdom of Saudi Arabia to sell plastic raw materials and additives in international markets.

Today, we provide alternative delivery solutions to its customers from: **Kingdom of Saudi Arabia, United Arab Emirates, Egypt and Turkey.**

SPG is a strategic partner with **ALWAHA** for plastic industry in Saudi Arabia & Egypt.

Now, **ALWAHA** produces wide range of products such as:

- LLDPE Rotomoulding compound.
- PP Compound.
- Polyethylene Stretch film.
- Polyethylene for heavy duty & Shrink applications.
